2.4: by 2030 ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters, and that progressively improve land and soil quality;

2a: increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development, and plant and livestock gene banks to enhance agricultural productive capacity in developing countries, in particular in least developed countries; 3d strengthen the capacity of all countries, particularly developing countries, for early warning, risk reduction, and management of national and global health risks;

6a: by 2030, expand international cooperation and capacity-building support to developing countries in water and sanitation related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies;

8.10: strengthen the capacity of domestic financial institutions to encourage to expand access to banking, insurance and financial services for all;

13.1: strengthen resilience and adaptive capacity to climate related hazards and natural disasters in all countries; 13.3 improve education, awareness raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction, and early warning;

15.4: by 2030 ensure the conservation of mountain ecosystems, including their biodiversity, to enhance their capacity to provide benefits which are essential for sustainable development;

15c: enhance global support to efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities;

17.8: fully operationalize the Technology Bank and STI (Science, Technology and Innovation) capacity building mechanism for LDCs by 2017, and enhance the use of enabling technologies in particular ICT;

17.9: enhance international support for implementing effective and targeted capacity building in developing countries to support national plans to implement all sustainable development goals, including through North- South, South-South, and triangular cooperation;

17.18: by 2020, enhance capacity building support to developing countries, including for LDCs and SIDS, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts.

References on **Partnerships** in the proposed (draft) SDG outcome document, July, 2014

17.16: enhance the global partnership for sustainable development complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technologies and financial resources to support the achievement of sustainable development goals in all countries, particularly developing countries;

17.17: encourage and promote effective public, public-private, and civil society partnerships, building on the experience and resourcing strategies of partnerships.
